

WORLD OF RENEWABLES

OFFICIAL WEBSITE OF - THE WORLD RENEWABLE ENERGY ASSOCIATION

www.worldofrenewables.com (WoR)

World of Renewables (WoR) was launched in March, 2006 as the official website of The World Renewable Energy Association (WREA). World of Renewables offers a dynamic and interactive portal for over 45,000 unique renewable energy professionals every month. Featuring qualified membership, conference and event diaries, highly trafficked discussion forums, latest industry news and reviews as well as featured articles and interviews with the leading industry professionals.

World of Renewables is a buzzing and business critical information source for environmentally and future focused professionals worldwide. 15,000 visitors have become valued members and can enjoy their own member features and unique user settings to best enjoy the free services we provide them, 'opt-in' to our e-Newsletters and e-updates, discuss their views and ideas in our members forum and receive their chosen RSS feeds direct to their desktop.

World of Renewables (WoR) informs on all aspects of Renewable Energy, including Renewable Heating (Solar Thermal, Biomass & Geothermal), Photovoltaics (PV), Wind Power, Hydro Power, Biofuels, Cogeneration and Distributed Energy, Hydrogen/Fuel Cells, Energy Efficiency and all aspects of Green and Sustainable Power production.

Visitor Demographics
